

Fiji Sports Educational Travel

FIJI

Fiji is made up of over 300 islands of which only one third are populated so if you are looking for a sports tour in a tropical paradise this is definitely it! However in contrast the larger inhabited islands are of a volcanic origin with striking landscapes and it is upon the likes of Viti Levu and Vanua Levu that the majority of fixtures will be played. The Fijians are renowned for their strength as a rugby playing nation. However numerous sports including Basketball, Hockey, Cricket and Soccer are played from April to September in the summer months.
